Documentation & Tablet Carts

Automated Narcotics Storage, Access, & Tracking

Common Challenges

- Q:** How are controlled meds stored? In a locked closet?
- Q:** Is drug diversion or a DEA audit a concern?
- Q:** Do you need to safely store large items like pre-filled syringes, Propofol, etc?
- Q:** Are all other automated cabinets too costly?

NexsysADC™ 4T
by Capsa Healthcare

NexsysADC™ 4T

Ideal for busy surgery centers where tight medication control is required, but small space, budget or formulary are also a consideration. NexsysADC 4T is countertop-sized with the full security and tracking of alternative automated cabinets (ADCs) – yet at a fraction of the price. NexsysADC 4T is the simplest system to manage the storage of controlled and high-value medication -- individual doses or bulk items.

At all times, you know inventory levels, who is accessing the cabinet, and what is dispensed for a specific patient or procedure. You will have secure medications, deter diversion, gain a fast return on investment, and stay ahead of DEA audit concerns.

With guided-access technology, NexsysADC 4T helps clinicians get the exact dose needed, automatically log the transaction and update the inventory, and proceed with what they are best at: patient care.

Safeguard pre-filled vials, dermal fillers, ampules, oral doses in individual locked cells.

NexsysADC™ meets the highest standards for cyber security and HIPAA compliance (ISO 27001:2013 Certified)

Automated Narcotics Storage, Access, & Tracking

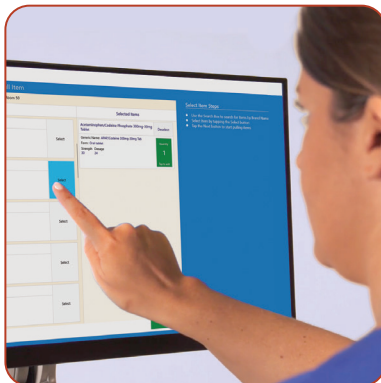

Know who is accessing each dose at what time

Unique Controlled Access Modules (CAMs) protect controlled and high-value medications. Each 3" CAM holds up to 25 smaller SKUs, and deep 6" and 10" CAM Drawers hold up to 12 large-item SKUs. Each cell features individual locking lids, pick-to-light, and tamper-evidence.

Clean, bright software design and intuitive user interface.

4T Specifications

- Cabinet size 23.5"(w) 20.4"(d) 17.7"(h)
- Adjustable 14" touchscreen monitor (total unit height 26")
- Capacity up to 150 SKUs (highly configurable)
- Weight 100 lbs (empty)
- Metal mounting plate, hardware, template included

Adaptable, Scalable NexsysADC™ Configurations

Complete each cabinet's 4 tiers with a combination of:

- CAMs for controlled & high-value meds
- Dividable open cell medication bins for routine meds
- 3", 6", or 9" drawers for high-value supplies

Controlled Access Modules (CAMs)

Controlled and high-value medications are safely guarded in CAMs. Available in 3" (for single doses), and deep 6" and 10" drawers (for bulk items).

Open Cell Medication Bins

Routine meds and non-controlled doses are efficiently managed in dividable open-matrix bins.

Also available:
10-tier main cabinet for maximum storage capacity in very large veterinary hospitals

Efficient Storage For Specific Procedures & Expensive Supplies

Common Challenges

- Q:** Are you using a medical-grade cart for emergency response?
- Q:** Are supplies for specific procedures (IV, anesthesia, surgery) organized in designated mobile workstations?
- Q:** What year were your existing medical carts purchased? More than 5?

Avalo® Medical Carts

High-level care depends on easy access to the right instruments and supplies when needed. Capsa Healthcare puts everything at your fingertips with a complete line of configurable medical carts. Organize and mobilize all supplies with ample capacity, security options, and durable construction.

Avalo® Emergency Cart

Avalo® Anesthesia Cart

Avalo® Treatment Cart

Avalo® Medical Carts Benefits

- Avalo emergency/crash carts for fast code response. Unique breakaway locking handle with multiple accessories.
- Avalo anesthesia carts include flexible drawer divider systems, removable drawer trays, and a choice of 3 locking systems
- Avalo treatment carts are versatile, maneuverable, and flexible for any procedure
- Multiple heights & drawer configurations

Mobile and Bedside Documentation Workstations

Common Challenges

- Q:** *Is a laptop or tablet hand-carried between exam rooms?*
- Q:** *Do you need to transport computer, supplies, and meds at the same time?*
- Q:** *Are your wall computer arms bulky or do they interfere with patient care?*
- Q:** *Do you need a mobile telehealth solution for patient-to-outside communication?*

Documentation Workstations & Tablet Carts

Capsa Healthcare provides a wide range of mobile computing carts, tablet and monitor carts, and wall workstations. Capsa's solutions facilitate clinical documentation, virtual care and improve patient experience in any healthcare facility.

Capsa's mobile computing carts and tablet carts are simple, lightweight, and compact for crowded care settings, and accommodate laptops, tablets or all-in-one computers. Choose non-powered or powered, and a large number of convenient accessories.

Capsa's wall-mount computing solutions are slim profile and stow away neatly when not in use. Their flexible range of motion supports close patient care.
