Across the healthcare continuum, Capsa stands out as the leader in purposefully designed, integrated solutions for **pharmacy automation, medication management, and point-of-care technologies**. Capsa has partnered with healthcare providers for more than 60 years to engineer innovative answers for complex challenges. Our solutions **optimize workflows, streamline repetitive tasks, and improve clinical efficiency**. From automating pharmacy operations to enhancing patient engagement, Capsa is **engineering a path to better care**.

As a trusted partner for in-patient and out-patient healthcare facilities, Capsa is committed to making it easier to deliver efficient, effective care in every clinical environment. We engineer point-of-care solutions optimized for performance, durability, and ease of use. Our systems streamline clinical workflows, freeing providers to invest their time and attention where it matters most: delivering care.

Our point-of-care products include mobile and wall-mounted computer workstations that facilitate documentation, virtual care, procedure organization, and medication management for an array of clinical disciplines. Every solution is designed collaboratively in partnership with the client to address each provider's unique requirements. This collaboration extends beyond installation with comprehensive service and support to keep every solution operating at peak performance.

Trio™

Computing Workstations

The Trio Computing Workstation combines innovative advancements with flexibility to meet the needs of clinical users today and into the future.

NEW! The Trio line of computing workstations has expanded to support a wider range of mobile computing requirements. **Trio LT** is a powered computing workstation that offers all the essential features and proven power flexibility you want in a modern workstation.

Trio NP, a non-powered workstation, supports simple care applications or workflows that do not require continuous power.

PERSONAL ERGONOMICS

Personally adjustable for optimal user comfort including memory presets

THOUGHTFUL TOOLS

Control center provides simple touch screen navigation to informative tools

N-SIGHT™ FLEET MANAGEMENT

Enhanced N-Sight software to monitor and optimize fleet utilization

- Slim profile, improved mobility and enhanced features
- Trio and Trio LT feature the GoLife hybrid power system for extended mobile runtime
- Configurable with an array of drawer and bin options
- N-Sight™ Fleet Management software with enhanced user management tools comes standard with the full-featured Trio workstation

Trio™

Features & Models

SIMPLE MOBILITY

Slim profile, lightweight platform with enhanced steering assist for easy mobility and control

STORAGE FLEXIBILITY

Supports a variety of storage options including MaxBin™ storage module

CareLink™

Mobile Nurse Workstations

CareLink Nurse Workstations elevate mobile computing to the next level, with improved communications, N-Stride™ steer assist, and N-Sight™ proactive cart fleet management. CareLink provides ergonomic features and workflow solutions that will simplify the rigorous day-to-day tasks associated with providing patient care.

- Two-position front handle and rear handles for easy maneuvering
- Keyboard, work surface, and ground lights for working in darkened rooms
- Fully configurable storage and organization
- Smooth non-porous surfaces for easy cleaning and durability
- API available for integration with Single Sign-On or other apps

INTELLIGENT PLATFORM
N-Sight™ remote fleet management with no software to install or maintain

EASIER TO MOVE
N-Stride™ steer assist and 5" casters promote easy maneuverability and control

SAVES TIME
CareLink's 7" glass touchscreen enables improved communications and simplified use

Fleet Management

N-Sight™

N-Sight facilitates asset utilization through optimizing fleet deployment and maximizing the uptime and availability of carts (Trio & CareLink only).

 **N-Sight™** helps you monitor your fleet.

N-Sight™

Optimize Your Fleet

N-Sight helps facilities improve asset utilization, maximize fleet performance and value, and help prevent issues before they impact clinical workflow. The cloud-based N-Sight software features analytics to support optimized fleet utilization and simplified user management tools.

Robust Cloud Solution

N-Sight is a cloud based platform with no client software to install on facility desktop workstations or cart-based computers.

Maximize Uptime and Availability

Maintain cart availability while proactively monitoring cart fleet power levels and performance. Analytics provide visibility into power usage and allow adjustments to technology settings to maximize cart runtime.

Right-Size Fleet

Evaluate cart usage patterns and peak needs to determine if the number of carts deployed meet current clinical demands. Identify opportunities to redeploy carts to locations with greater needs, optimizing asset utilization.

Remote Fleet Management

N-Sight enables remote management of cart user groups, PIN codes, and user permissions. Save time finding lost carts with cart locator*, based on the last wireless access point.

Configuration Settings

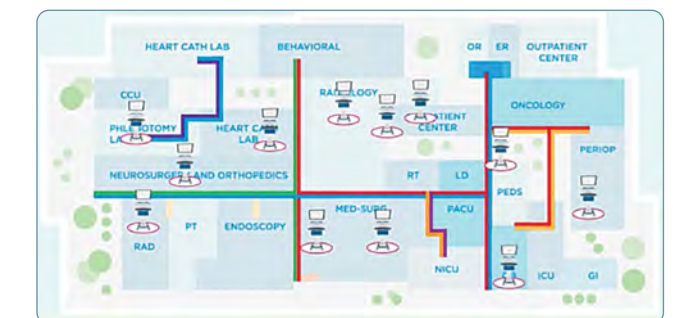

Centralized management of cart configurations for displays & alerts, PINs, notifications and service requests.

Integration with Hospital Systems

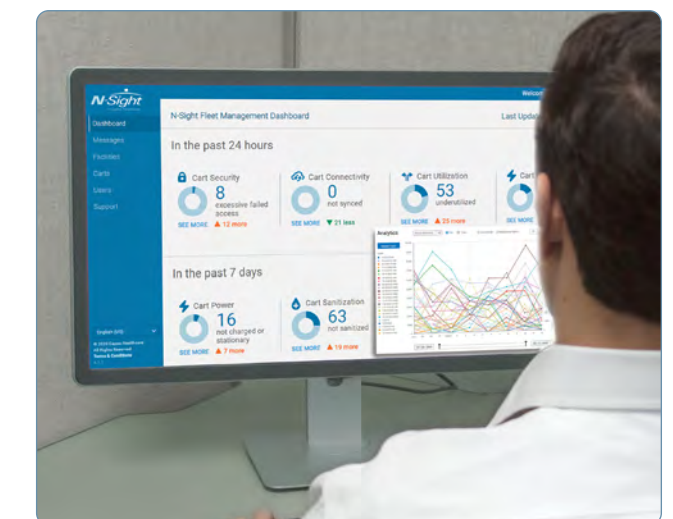

To facilitate communication between clinicians, IT, and other hospital departments, N-Sight offers integration with hospital systems that can accept email/SNTP input.

Optimize Your Fleet

M38e

Mobile Nurse Workstations

The M38e from Capsa Healthcare is one of the most proven point-of-care computing cart in healthcare. With updated features that provide superior ergonomics, enhanced ease-of-use, and expanded storage flexibility, the M38e maximizes clinical efficiency and elevates the performance of your health IT program.

- Smaller profile glides through tight care settings
- Large work area with additional 100 square inch expandable surface feature
- Increase battery runtime for consistent uptime performance
- Large CPU storage area for expanded tech organization

ERGONOMIC ADJUSTABILITY
Simple adjustments for individual preference and ergonomic comfort

SECURE
Intuitive locking and security system

STORAGE
Flexibility to configure workstation with storage drawers or bins

Computing Workstations

Built for intuitive one-hand operation, the **T7 Mobile Technology Cart** was designed with caregivers in mind. Its Auto Fit™ technology instantly adjusts to each caregiver's entered height, while the Power Track™ steering allows for virtually effortless maneuvering and complete user control.

AUTOFIT™ TECHNOLOGY
Ease of adjustment for each user in a shared work environment

POWER TRACK™ STEERING
Easily maneuver in tight spaces or corridors

WIRE MANAGEMENT
Encased wire management reduces clutter

- AutoFit™ Technology offers ease of adjustment for each user with simple combined adjustment for the work surface, keyboard, and display
- 20" (50.8 cm) height range ensures comfortable ergonomic accommodation for seated and standing caregivers
- Power Track™ steering enables caregivers to easily maneuver in tight spaces and corridors
- Powered carts encased wire management system mitigates both clutter and infection control concerns
- Powered and non-powered

Features & Models

VERTICAL MONITOR ADJUSTMENT
Raised and lower monitor independent of the work surface utilization

TAP-N-GO READY
Standard RFID Readers can be secured under the cover

LARGE WORK SURFACE
Ample work surface space allows for greater utility

MedLink™

Medication Workstations

The MedLink Cart is a medication management solution that ensures safe, accurate medication administration. It's specifically designed to reduce human error, keep patients safe, and create a closed-loop medication system using lockable drawers and patient wristband scanning. This ensures each patient receives the correct medication while allowing caregivers to focus on patient care.

- AutoFit™ Technology offers ease of adjustment for each user with combined adjustment for the work surface, keyboard, and display
- 20" (50.8 cm) height range ensures comfortable ergonomic accommodation for seated and standing caregivers
- Power Track™ steering enables caregivers to easily maneuver in tight spaces and corridors
- Modular drawer design allows customizable layout and drawer sizes to meet workflow demands
- RFID technology assists in locating each patient drawer – to cart, cassette, caregiver

AUTOFIT™ TECHNOLOGY
Ease of adjustment for each user in a shared work environment control

POWER TRACK™ STEERING
Easily maneuver in tight spaces or corridors

WIRE MANAGEMENT
Encased wire management reduces clutter

MEDLINK

MedLink™

Features & Models

MODULAR DRAWER SYSTEM
Removable cassettes can be transported and exchanged

MEDLINK SOFTWARE
Software aids in the secure delivery of medication

AMPLE WORKSPACE
Ample work surface space allows for med preparation

MEDLINK Standard

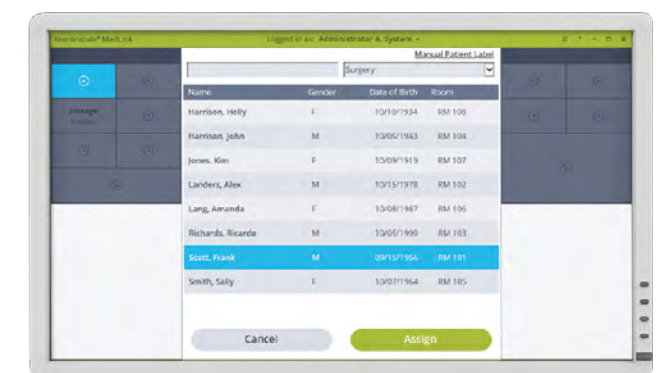

MEDLINK High-Capacity

MEDLINK Standard Laptop Cart

MedLink™ Pro Software

MedLink Pro, the next generation in medication management software, retrieves and displays patient data, and aids in the secure delivery of medication by healthcare professionals to promote patient safety. MedLink Pro is expertly designed to reduce human error and supports a closed-loop medication system.

- Drawers can be assigned to an individual patient through electronic labeling
- HL7 integration allows patient labels to be selected from the existing hospital patient list rather than manual entry
- RFID-embedded technology assists in locating each patient drawer – to the specific cart, cassette and caregiver
- Assigned drawers can be opened automatically by scanning a patient wristband barcode
- Integrates with Microsoft Active Directory

See page 39 for storage drawer options
See page 41 for accessory options

Tryten™ S-Series

Monitor & Tablet Carts

The **Tryten S-Series** offers lightweight, easy-to-manuever mobile cart solutions designed for various applications, including telehealth, video remote interpreting (VRI), virtual rounding, tele-sitting, EHR workstations, and telemedicine. We aim to enhance both patient and provider experiences while lowering care costs by deploying our products exactly when and where they're needed most.

- Weighted, small footprint base
- Whisper-quiet, non-marking, lockable wheels
- Concealed cable management
- Medical-grade, wipeable components
- Large, height-adjustable utility box
- Modular design allows the use of 40+ accessories
- IEC 60601 tested for tip resistance

CONCEALED CABLE MANAGEMENT

Cable channel allows for discreet routing of cables between devices and utility box.

MODULAR DESIGN

Customize your cart to your exact needs with over 40 peripheral and accessory options

SMALL FOOTPRINT

Weighted, small footprint, base takes up minimal floor space while maintaining a sturdy and stable foundation

Tryten™ S-Series

Features & Models

CONVENIENT POWER STORAGE

Large, height-adjustable utility box provides power points for plugging in devices

DEVICE SECURITY

Secure mounting options for tablets or lightweight monitors

COMFORTABLE, EASY USE

Ergonomic design reduces strain and fatigue allowing for comfortable use

Tryten™ P-Series

Monitor & Tablet Carts

The **NEW Tryten P-Series** is a versatile solution tailored to the needs of modern healthcare environments. Compared to the S-Series, the P-Series features a sturdier base, and larger column, allowing users to mount more accessories while maintaining cart stability and clean cable management. Designed for comfortable use and easy mobility, the P-Series minimizes strain and fatigue for clinicians and a sleek profile makes it ideal for tight spaces.

- Weighted, small footprint base
- Whisper-quiet, non-marking, lockable wheels
- Concealed cable management
- Medical-grade, wipeable components
- Large, height-adjustable utility box
- Modular design allows the use of 40+ accessories
- IEC 60601 tested for tip resistance

ENHANCED CABLE MANAGEMENT

With a 60% wider column than the S-Series, the P-Series allows for increased cable management and more accessories.

14" ARTICULATING ARM

Long 14" articulating arm provides a height-adjustable, extended reach for optimal user experience.

INCREASED STABILITY

The P-Series base is 21% larger and 55% heavier than the S-Series, improving stability for heavier peripherals and accessories while maintaining mobility and accessibility.

LX5 & M40

Computing Cart

The **LX5 Laptop Cart** offers a lightweight, non-powered design to accommodate your choice of laptop computer and the flexibility to configure with optional storage. The LX5 promotes simplicity and value to help lower the total cost of mobilizing health IT software.

- Accommodates widescreen laptops up to 17"
- Ergonomic adjustability is simple with LiftAssist™ height adjustment
- Laptop anti-theft security bridle
- Small footprint, slim profile, and super-lightweight
- Flexibility to configure with storage drawers including 3" or 6" depth

LX5

The **M40 Computing Cart** offers light-weight construction and compact ergonomic design for mobile documentation needs. The laptop enclosure provides a large work surface area and secure technology storage.

- Oversized 20" wide x 11" deep work surface
- Work Surface has a 16" range of adjustable height
- 19" x 21" compact base for easy maneuvering in patient areas and tight spaces
- Accommodates up to 17" notebook and tablet PCs
- Contoured handles minimize strain when pushing
- Integrated keyboard light with auto shut-off feature for nighttime use

M40

V6™ Wall Station

Wall Mounted Workstations

The **V6 Technology Wall Station** combines exceptional space-savings with ergonomic design for comfortable caregiver computer use, whether seated or standing.

A range of ergonomic adjustments allows caregivers to easily position for a healthy computing experience and facilitates their engagement with patients.

ADJUSTABLE

Flexible monitor arms facilitate patient-caregiver interactions

CONFIGURABLE

Easily customizable to fit care space - with or without extender arms

ERGONOMIC DESIGN

Encourages comfortable and convenient computer use

- Flexible monitor arms ensure technology never gets in the way of patient-caregiver interactions
- Easily customizable with numerous monitor and keyboard arm lengths
- Choose an accessory mount or rail to support peripheral shelves and mounts for gloves, wipes, and other common items
- Features a sleek, sustainable aluminum design, neutral color palette, and streamlined aesthetic
- Cable management system and wipe-clean finish are designed for easy cleaning to ensure effective infection control

AX Series Arm

Monitor Arms

The **AX Series Arm** lets you select the combination of components to build your ideal health IT workstation. When price and value matter most, the AX Series provides improved ease-of-use and ensures an efficient EHR process at the point-of-care.

AX SERIES ARM
With Monitor Extender

AX SERIES ARM
With Keyboard Extender

General Specifications:

- Standard VESA 75mm, 100mm
- 90° range of articulating arm motion provides 12" of vertical monitor adjustment
- 180° range of lateral motion
- Monitor or keyboard tray tilt in 90° positive or 20° negative direction
- Slim profile under 8" when stowed

Optional Accessories:

- 18" Extender Arm (not available with 16" wall track)
- 20" x 11.5" work surface
- Rotation limiter

- Provides effortless use through a flexible range of motion, while supporting patient interaction at the bedside
- Independent vertical keyboard adjustment allows variable space between hand position and monitor
- Fully configurable with articulating and optional fixed arm components
- Lightweight aluminum with hardened finish withstands the rigors of healthcare environments
- Slim profile when stowed for care settings that require compact and functional workstations

AX SERIES ARM

Fluid™ Wall Arms

Wall Mounted Workstation

The **Fluid Wall Arms** are designed to provide maximum stability, flexibility, and functionality for clinical documentation and patient interaction in any healthcare environment. The Fluid ULT arm supports a total weight capacity up to 20 pounds, while the Fluid UHD supports up to 35 pounds.

- Independent monitor and keyboard rotation of 180°
- 22" in vertical arm adjustment with increased lower range supports seated or standing patient interactions
- For maximum extension, an optional extension arm to provide 62" of reach into care environment
- Slim profile under 9.5" when stored to maximize space
- Allow for mounting onto previously installed industry compatible tracks or supplied 34" track

EASY TO ORGANIZE

Expansive work surface with left/right mouse surface and enclosed keyboard storage

MAXIMUM EXTENSION

Optional extension arm provides up to 62" of reach that allows closer patient engagement

EASY TO ADJUST

22" in vertical arm adjustment with 180° independent monitor and keyboard rotation

FLUID™ ULT ARM

General Specifications:

- Monitor mount standards: VESA 75mm, 100mm
- Keyboard pivot range: 180°
- Monitor rotation range: 180°
- Monitor tilt range: >40° (101.6 cm)
- Vertical monitor adjust: 9.5" (24.13 cm)
- Vertical arm adjust: 22" (55.88 cm)
- Weight capacity: ULT up to 20 lbs (9.07 kg)
UHD up to 35 lbs (15.87 kg)
- Work surface size: 11.25" x 22" (28.57 x 55.88 cm)
- Mouse surface size: 8.5" x 9.65" Left/Right (21.59 x 24.51 cm)
- Keyboard tray size: 8.75" x 18.5" (22.22 x 46.99 cm)
- Storage profile: <9.5" (86.36 or 121.92 cm)
34" or 48" track options (86.36 or 121.92 cm)

Tandem Arm™ & Slim Line

Wall Mounted Workstations

The Tandem Arm and Slim Line redefine wall-mounted workstations. With dual arms that move in tandem, the Tandem Arm provides superior stability and range of motion; while the work surface facilitates med preparation and supply accessibility. The Slim Line provides a compact solution for discreet computer access and is easily adjusted for sitting or standing use.

- Dual pivot points on the Tandem Arm maximize rotational range of motion
- Generous 21.5" w x 11" d work surface with spill retaining lip
- Task light with auto shut-off illuminates the work surface for nighttime use
- Position height adjustment facilitates sit to stand interaction
- Locked position height adjustability ensures stability and eliminates movement
- Trim-line profile when stored

LIGHTED WORKSURFACE

Specialty Carts

CareLink™ Fetal Monitoring Cart

The CareLink™ Fetal Monitoring cart provides both fetal monitoring and a mobile workstation in a single solution. Your choice of medical monitoring system promotes workflow efficiency in labor and delivery departments.

Features

- Dual-swivel monitor mount supports up to 22" monitors
- Stable open shelf supports and secures a variety of Fetal Monitoring systems
- N-Sight™ fleet management for remote asset management
- N-Stride™ steering control for effortless maneuverability and control
- Expansive work surface
- Height adjustable with electronic lift

Phlebotomy Cart

Configure Trio or M38e as a flexible, mobile Phlebotomy workstation that keeps all of your blood draw supplies close at hand, and enables you to easily transport them throughout the facility. Multiple bin sizes and divider options provide ample storage and smart organization of phlebotomy supplies.

Features

- Large work surface with raised edges and expandable surface feature
- Configurable to meet workflow needs
- Simple electronic height adjustment
- Slim profile for tight care settings and ease of mobility
- Ergonomic adjustments, easy maneuverability
- Increased runtime for improved uptime performance

Registration Cart

Configure Trio or M38e for a flexible, mobile workstation that enables you to move easily from one patient room to another. Both platforms feature a large work surface, with a slide out extension for additional work space. Multiple drawer and bin options provide ample storage and smart organization of supplies. Choose from an array of accessories to best accommodate your choice of printers, scanners and electronic signature pads.

Features

- Large work surface with rear utility bins and expandable surface feature
- Configurable with scanner mounts and printer shelves to meet patient registration workflow needs
- Choose from manual or electronic height adjustment
- Slim profile for tight care settings and ease of mobility

Telehealth Carts

Telepresence Cart

Equip the Trio or M38e workstation to enable video communication and enhance telehealth workflow with real-time consultation, connecting doctors with remote patients in real time, increasing access and timeliness to care.

Features

- Optional mounts for video or web camera above the monitor
- Optional I/O Pod for integrating peripherals
- Configurable with your choice of video conferencing and audio equipment
- Storage drawer options accommodate telepresence supplies
- Large work area with expandable surface feature

CareLink™ Telepresence Cart

The CareLink Telepresence cart is equipped to enable video communication to enhance your workflow with real-time consultations. This innovative telehealth workstation accommodates your choice of video conferencing technology enabling doctors and clinicians to connect with their patients.

Features

- Optional I/O Pod for integrating peripherals
- Optional mounts for video or web camera above the monitor
- Configurable with your choice of video conferencing and audio equipment
- Storage drawer options accommodate telepresence supplies
- On-board communication tools for messaging and service requests
- N-Sight™ fleet management for remote asset management

CareLink™ Telemedicine Cart

The CareLink Telemedicine Cart is designed to enable video communication and the use of diagnostic peripherals facilitating virtual care and timely diagnostics. CareLink connects doctors to remote patients in real time, increasing the access and timeliness to care.

Features

- Offers I/O Pod plug-n-play capabilities to integrate medical peripheral cameras and scopes
- Ventilated storage cabinet for housing PCs or Codecs
- Optional storage drawer for diagnostic peripherals
- Optional mounts for video or web camera above the monitor
- Supports single or dual monitor configurations
- On-board communication tools for messaging and service requests
- N-Sight™ fleet management for remote asset management

Storage Options
